Combination of Plow and Snow Thrower

GENERAL INFORMATION

ATV requirements and mounting

- An ATV / UTV needs to be 4x4 and have a winch to use Rammy
- An ATV / UTV also needs a *center mounting kit* (mid mount) or *front mounting kit*
- We and our dealers have center and front mounting kits available for most ATV / UTV models
- For Can-Am Promount and Kimpex Click N Go (or similar) we have lock hooks available
- Note that ATV's / UTV's front suspension swings down about 2-15 cm when Rammy is lifted up with a winch
- Depending on ATV / UTV brand, model, model year, suspension, wheelbase, etc

Center mounting

- Better vehicle handling
- Sturdy and robust
- Attachment to ATV/UTV bottom

Front mounting

- Faster to attach
- Rises higher
- Not suitable for Brush cutter or Lawn mower

Warranty

Rammy has a 2-year warranty. Wearable parts like blades and belts are not included in warranty. The engine has its own 2-year warranty by Briggs & Stratton.

CENTER MOUNTING KITS

FACTORY

DESIGN

Here at Rammy, we have developed all the products ourselves from scratch. Rammy products are built on three key principles; quality, practicality and service. So that you can get more done with your ATV/UTV!

ASSEMBLY

Rammy development, testing and assembly takes place in our own factory at Toivala, Finland. Our current factory opened 2018 and we have expanded it three times in the last two years.

SALES

Over 300 dealers in 20+ countries, and a network that is constantly expanding. Find your nearest dealer [here](#).

CUSTOMER SERVICE

Inhouse customer service. We promise to answer all emails in two (2) working days. Spare parts ready in stock and delivered globally.
